

**MEDsan UK supplies Advantage Business Systems,
an accredited Microsoft Gold Partner, with rapid antibody testing
for frontline employees**

CASE STUDY - AUGUST 2020

As a provider of dynamic IT solutions for businesses, including cloud transformation and ensuring remote working capability, **Advantage Business Systems** has been kept busy supporting its business customers throughout the coronavirus pandemic.

This support includes customer visits by frontline IT engineers. **In order to ensure the safety of both employees and customers during this time, Advantage Business Solutions have chosen to regularly test their engineers with rapid antibody testing from MEDsan UK.** This testing strategy has enabled Advantage to understand if there is any presence of infection in their workforce. Employees can test themselves at home, or have a test taken at the office and results are given with in 10 minutes. There are no hospital visits and no waiting for laboratory results. **With an accuracy of 98.3%, Advantage have chosen a highly reliable and practical means to test their employees for COVID-19.**
